TAX FILING STATUS – BLANK

You will need to go back on FAFSA and update the information on your tax filing status. Even if you didn't file taxes, you must say "not going to file" as an option.

To correct your tax filing status, please refer to the directions listed below:

- Sign on to your FAFSA application and click on the make corrections link.
- Once you are on your FAFSA, click on the Financial Information Tab on the top (this should bring you to your parent's information).
- About half way down the page, there is a question that reads "would you like to skip the remaining questions about your parents," say "NO" to this question.
- Scroll down to the bottom of the page, and again, it asked the same question. This time say "Yes."
- Click on the next arrow on the bottom of the page and this should bring you to your tax information to make the necessary correction.

Please contact our office if you have any questions.
